

# The Fuel Efficient TPE331 Keeps Money in Your Pocket!

The TPE331 is conservatively assumed to save 15% in fuel consumption compared to other comparably-sized turboprops. At a usage level of 40 gallons per hour, a 15% savings translates into a reduction of 6 gallons per hour (GPH). CONSIDER THE FOLLOWING...

Engine Hours Flown:	Your 15% Savings:		Pays for:
	<u>@\$5/gallon</u>	<u>@\$7/gallon</u>	
200	\$6,000	\$8,400	
400	\$12,000	\$16,800	Hot Section
800	\$24,000	\$33,600	Hot Section
3,000	\$90,000	\$126,000	Overhaul
5,000	\$150,000	\$210,000	Overhaul
7,000	\$210,000	\$294,000	Outright Engine Purchase

**The TPE331 Saves You Money Like NO Other Engine Can!!!**
